

Incoming 2nd Graders Tips For The Summer Learning

We are excited to meet our new 2nd graders. We hope you all have a summer full of fun and rejuvenation! Reading throughout the summer helps children to keep their brains active and ready for school in August. While 1st graders enjoy reading alone, it is a special time for children to read with their parents, older siblings, or grandparents. We are asking that you read *Charlotte's Web* with your child. It gives them time to talk about the story. For some children, the idea of a chapter book is daunting, while others are excited to read a "big" book. Enjoy the time with your child, and let them tell you about this story. Attached is the summer reading project for incoming 2nd graders. It will be due, Friday, Sept. 6.

READING

Students need to read every day! You might take trips to the Public Library and let them find books that interest them, and are at their reading level. The Public Library also has great activities throughout the summer!

WRITING

Purchase a writing notebook and give your child journal topics to write about. This not only helps with writing skills, but also keeps the mind working!

MATH

To keep up with math skills make sure your child practices their addition and subtraction facts. There are tons of resources available online to reinforce these skills and make it fun.

I hope these tips are beneficial to you and your child. Enjoy time with your sweet children this summer!!
